

MOCCASINS II PAVEMENT

It has been brought to the world's attention that the health crisis for First Nations over the past four years has created a homeless situation throughout Turtle Island (current North America). The result has caused an astronomical rise in Mental Illness and Addictions, a health condition that has exploded beyond epidemic proportions for OUR PEOPLE at this current moment in time.

It has only been 62 years since First Nations have been considered Canadian Citizens. During this time, First Nations have faced discrimination, alcoholism, and residential school colonization, all of which have played a major role in migration of OUR PEOPLE coming from OUR HOME FIRES into the urban life.

Not one human being is immune from this situation, whether it has impacted them personally within their immediate family or the community they live in. Inspired through a vision by OUR CREATOR over 30 years ago, Danné Mykietyyn teamed up with an Elder from Lhoosk'us Dené Nation in Quesnel, BC Canada. This Elder was an Advocate for their band and a survivor/warrior of the street life in British Columbia. Together, they pounded the pavement with their Street Family, attentively listening to their stories, only to discover SIMPLE SOLUTIONS TO THESE MONUMENTAL CHALLENGES. Recently, Danné teamed up with Geraldine Johnson, another Elder from Quesnel, BC and a board member for the Quesnel Tillicum Friendship Centre and the Patricia Lasca Healing Foundation.

Through prayers and understanding, a collaborative approach to holistic healing and recovery is available through DandiLion™ Healing, and many health care professionals worldwide trained by the Walsh Research Institute www.walshinstitute.org

To gain understanding of this approach to healing, please go to the website www.dandilionhealing.com under the heading of NUTRIENT PSYCHIATRY (Advanced Nutrient Therapy). We know this method of healing will spread like WILDFIRE throughout Turtle Island. This teaching and healing method has not abandoned the traditional way of healing for First Nations People, but will enhance Brain Health and Whole Body Wellness. We are stepping into a NEW ERA.

"MOCCASINS II PAVEMENT TOUR" and their fundraising events across our home communities was born from this vision. The GOAL is to address this devastating issue in everyone's neighbourhood and throughout our world. Each and everyone of us is merely ONE PENNY AWAY FROM BECOMING HOMELESS due to the current socio/economic times we currently live in.

A path has been chosen for this quest, for the homeless, not only for non-native, but First Nations or descendants of First Nations. We need to STOP the bleeding of First Nations People. In OUR CREATOR'S eyes, WE ARE ALL HUMAN BEINGS here on Turtle Island and Mother Earth. We could use your support through sponsorship of each Nation to pursue the eradication of this dire issue. Your Nations support would be greatly appreciated in this endeavour.

Yours in Brain Health & Lifelong Mental Wellness,

Danné Mykietyyn & Geraldine Johnson
